

MINUTES OF THE SECOND MEETING OF THE  
EXPERT COMMITTEE ON ELECTRO-HOMOEOPATHY /  
ELECTROPATHY SYSTEM OF MEDICINE HELD ON THE 7<sup>TH</sup>  
AUGUST, 1991 IN NIRMAN BHAWAN, NEW DELHI.

The second meeting of the Expert Committee on Electro-Homoeopathy / Electropathy System of Medicine was held on the 7<sup>th</sup> August, 1991 under the Chairmanship of Dr. S. D. Sharma, Additional Director General, in his Chamber in Nirman Bhawan, New Delhi.

The following were present :

1. Dr. S. D. Sharma

Addl. D. G. \_\_\_\_\_ In the Chair

2. Dr. Narendra Kumar

Awasthy,

Secretary, NEHM OF INDIA \_\_\_\_\_ Member

3. Dr. D. P. Rastogi,

Director, CCRH. \_\_\_\_\_ Member

4. Dr. V. T. Augustine ,

Advisor (Homeo) \_\_\_\_\_ Member

(Prof.) B. N. Dhawan, Director, CDRI, Lucknow,  
the Member of the Expert Committee could not attend

the meeting due to other pre – occupations.

Confirmation of the Minutes of the First Meeting

The Minutes of the first meeting of  
the Expert Committee held on the 30<sup>th</sup> July, 1991 were  
confirmed with certain minor corrections.

In the last meeting. Dr. N. K. Awasthy ,

mentioned to bring the meaning of Electropathy /  
Electro-Homoeopathy in some dictionaries. Dr. Awasthy ,

accordingly produced some records from the “ The world  
book Encyclopaedia of Science 2 “ which is reproduced  
below -

“ Homoeopathy originated in the 1750’s  
when a German Dr. Samuel Hahnemann,

noticed that if the effects produced by  
a substance taken by a healthy person

corresponded to the sufferings of a sick

person then this substances, Homoeopathically  
prepared, could provide a useful cure. His

Homoeopathic preparations were made by  
repeatedly diluting and shaking the

substance.

Why does this system work, even when the  
degree of dilution may be so great that

the physical presence of the original  
substance is virtually undetectable ? Many

Homoeopaths believe that every substance  
has both physical properties and a

characteristic vibrational energy, which

is enhanced by Homoeopathic preparation.

Treatment is effected by a substance with vibrational energy that corrects the

distorted vibration energy of the patient.

The substance is usually chosen as a result of investigating both the symptoms

and character of the patient, though some practitioners attempt to match the

vibrational energy of the remedy to the patient directly. This can be done

using radionics or Electro-Homoeopathy.

Homoeopathy has been used to treat all forms of illness and tends to work either very

well or not at all.”

Pharmacopoeia :

No further evidence could be elicited further to what was given in the report of the Enquiry Report. However, Dr. Awasthy assured to bring

Indian Pharmacopoeia in the next meeting.

Recognition of the system in the other countries :-

In this regard, Dr. Awasthy produced a letter from Germany (At Annexure – I).

Thereafter, the Committee considered points

(2), (3) and (4) of the terms of reference of the

Expert Committee.

Point No. 2 Whether it is a prevalent system and it has a wide spread network of practitioners

who are practicing in this system of medicines.

This point was already been discussed in the first terms of reference. Whether this system is prevalent and practiced in other countries

and in India, the written comment of Dr. Awasthy were read out which are reproduced below :-

“Yest, the Electropathy / Electro-Homoeopathy system of Medicine is prevalent system and it has a widespread network of practitioners who are practicing

in Electropathy / Electro-Homoeopathy. There are 85 Electropathy Medical Institutes affiliated to

the Central Board, N. E. H. M. , of India, Janakpuri, New Delhi all over India. This organization

has been working for the last one decade for the

promotion and development of the new “Fifth Medical Science Electropathy / Electro-Homoeopathy”

in India. Through B.E.M.S. three years’ course many batches of Doctors have qualified in this

course. They are practicing in Electropathy by

using Electropathic Medicines. The results are very

encouraging. Electropathy Medical Science is up to

date, harmless, natural, scientific and is a perfect system of medicine containing co – forces,

which are divided under special process called

‘Cohobation’. In every nook and corner of India

the Electropathy Doctors are available. The

Electropathy medicines are very cheap and effective. There is no side affect at all.

This is a poor men’s medical science.”

Dr. D. P. Rastogi enquired about the

institution imparting training in this system and

if so, the names of such institutions alongwith their addresses. Dr. Awasthy assured to attaching the

list in the next meeting to be held on the 12<sup>th</sup> August 1991.

Dr. V. T. Augustine observed that it will be difficult for the Expert Committee to precisely establish the existence of practice of Electro-

Homoeopathy in other parts of the world, at the same time, it will be more difficult to deny the

existence also since the German Pharmacopoeia does mention about the process of Spagirc/

Cohobation which is followed by Electro-Homoeopathy.

Dr. Rastogi pointed out that he is not aware

of any person / institution where such system is practiced outside India. The Chairman observed

that from the observation of Dr. Augustine , it

appears that the Pharmacopoeial reference given

in the Enquiry Committee Report at Annexure V

is taken from German Homoeopathic Pharmacopoeia

but the process of Spagirc / Cohobation is followed

by Electro-Homoeopathy. In this respect, the

Chairman also pointed out that the Enquiry

Committee was seized of this issue as contained

in page 38 of the report. The Enquiry Committee

had observed that while the system is being

practiced in India probably in some other

developing countries, the drugs are imported

from Germany under the license of Homoeopathic

drugs.

An invoice was produced by Dr. N. K. Awasthy

regarding import of Electro-Homoeopathy Medicines

while the Drugs Controller (India) in a statement

had stated that there is no such entry as Electro-

Homoeopathic medicines in the Import – Export

policy. Only Homoeopathic drugs are allowed in the Policy.

Copy of the invoice produced by Dr. Awasthy and the statement of drugs controller (India) are annexed as Annexure 'II' and 'III' respectively.

Point No. 3 : Whether sufficient literature is available.

The comments of Dr. N. K. Awasthy were read out and are produced below :-

“Yes, there is sufficient literature on

Electropathy / Electro-Homoeopathy available in India.

The following books have been written by me and are used by the Electropathy Medical Institutes in India for teaching purposes.

1. Materia Medica & Practice of Medicine. (English)
2. Practice of Medicine (Hindi)
3. Materia Medica (Hindi)
4. Materia Medica Fundamental Law (English)

All the books produced by Dr. Awasthy were already

considered by the Enquiry Committee. Dr. Rastogi was asked to give his comments who observed that no

new literature has come and all the literature produced in the Enquiry Committee Report is more

than 100 years old and many of the terms are

outdated from the modern and scientific point of view, as regards Homothesis of various diseases.

Dr. Awasthy mentioned that even Homoeopathic system is based on Hahnemann which is about 200 years old and there concepts and theories are based on these hypothesis.

The Enquiry Committee had also examined in page 34 of the report that large number of books are available which is reproduced as Annexure IV. While reviewing the literature, the terms of

Electropathy / Electro-Homoeopathy / Electro – Complexa, it was observed that these terms are inter changeably used. All these books on various titles refer to the origin Count Mattei who created the Electro-Homoeopathy, a therapeutic system based on alchemy.

He also claimed an improvement on Hahnemann's Homoeopathy.

Point No. : 4 Whether it can be taught in a recognized institution to produce Doctors in this system of medicine.

The written comments of Dr. Awasthy were read out which are reproduced below :-

Yest, it is being taught in 65 Electropathy Medical Institutes affiliated to the Central Board,

N. E. H. M. of India, New Delhi all over India. After passing the B. E. M. S., three years' course, the doctors produced by these Electropathy Medical

Institutes have been practicing in Electropathy

System of Medicine by using Electropathic Medicines.

The results were very good.

I am enclosing that relevant literature in support of my claim that Electropathy System is well established of Medicines, it has widespread network of practitioners who are practicing in the country by using, Electropathic Medicines.

A question was raised as to what is the recognized institute viz., an institution of Allopathy, Ayurveda, Homoeopathy and Unani, but definitely not Electropathy as it is yet to be recognized. Unless this point is clarified, the committee had difficulty in giving their views. In this regard, Dr. Awasthy reiterated that Naturo – Electro – Homoeo Medicos (N. E. H. M.) of India is already recognized as this is established under Societies Registration Act, 1860.

The meeting ended with vote of thanks to the Chair.
